

The Capital Improvement Plan

The Capital Improvement Plan (CIP) is a separate budgeting process within the annual operating budget. The CIP procedure is used to plan, budget and finance the purchase and/or construction of large capital infrastructure, facilities, equipment and other capital assets. The City uses this process to ensure expensive, long-lived projects are aligned with its strategic direction and that the money is well spent.

Funding for capital projects can be obtained from any of the following sources:

General Fund Operating Revenues Cash is allocated from the General Fund to fund maintenance, technology and other small capital projects.

Water & Sewer and Solid Waste Revenue Bonds The Water & Sewer and Solid Waste funds are enterprise funds, which are supported by fees for service rather than by taxes. Revenue bonds are a type of loan in which the loan is repaid with revenues from the enterprise, not by contributions from the General Fund. These loans are used for projects related to plant capacity and modernizing the systems.

General Obligation (GO) Bonds This funding source is used to finance major capital projects with an expected life of 10 or more years. A general obligation bond is secured by the City's pledge to use legally available resources, including tax revenue, to repay bondholders. The City used a portion of the property tax levy to finance the debt service payments.

Neighborhood Improvement Districts These are a financing and development tool whereby cities can issue general obligation bonds for construction of public improvement and assess the cost to properties that benefit. The bonds are then retired through payment of special assessments by these benefiting properties.

Parks Sales Tax Fund This is funded by a voter approved 1/2 cent sales tax initiative. It is dedicated to parks and recreational facilities.

Water and Sewer Funds These are funded from fees associated with water and sanitary sewer charges respectively. It is dedicated to fund the operation, maintenance and capital improvement costs for the water and sewer system.

Road and Street Tax These are funded by the city share of county maintenance funding along with ½ cent sales tax.

Gasoline Tax These are funded by the city share of motor vehicle gas taxes.

Motor Fuel Tax These are funded by the city's tax on fuel sold at the pump.

Capital Improvement Tax These are funds derived from ½ cent sales tax funds.

Grants Funds may be granted from Federal, State or local sources, such as law enforcement sharing or transportation funding.

CIP Development Process

The CIP provides detailed information for all CIP projects that the City has planned for the 5 years displayed. The CIP is updated annually to adjust for changing capital needs, changes in availability and cost of funds, and to add a year of programming to replace the year just completed. The CIP process begins in June when all documents and financial tools are updated with current figures. Departments update current project descriptions and create new project descriptions for proposed projects. These descriptions include the following information: Project Name and Number, Fund, Department, Contact Person, Total Project Cost, Description, Justification, Expenditure Detail, Timeline Funding Sources, and Operation and Maintenance costs. Projects are then listed in the 5 year CIP or the unfunded/pending List. The Forecast Team examines the revenue forecast to see how the updated projects and proposed new projects impact the forecast. A debt service analysis is conducted and determines the final number of bond projects that can be financed within the five year period. New projects are included based upon debt capacity, operation and maintenance cost impacts.

The Administration Department then prepares the electronic and print version of the proposed CIP. Work sessions are held with the Board of Alderman to give the board an opportunity to study and evaluate the proposal. The CIP is then formally adopted by the

Board of Alderman in September.

The 2017-2018 total dollar amount for capital expenditures in the Capital Improvement Plan is \$20,060,830.

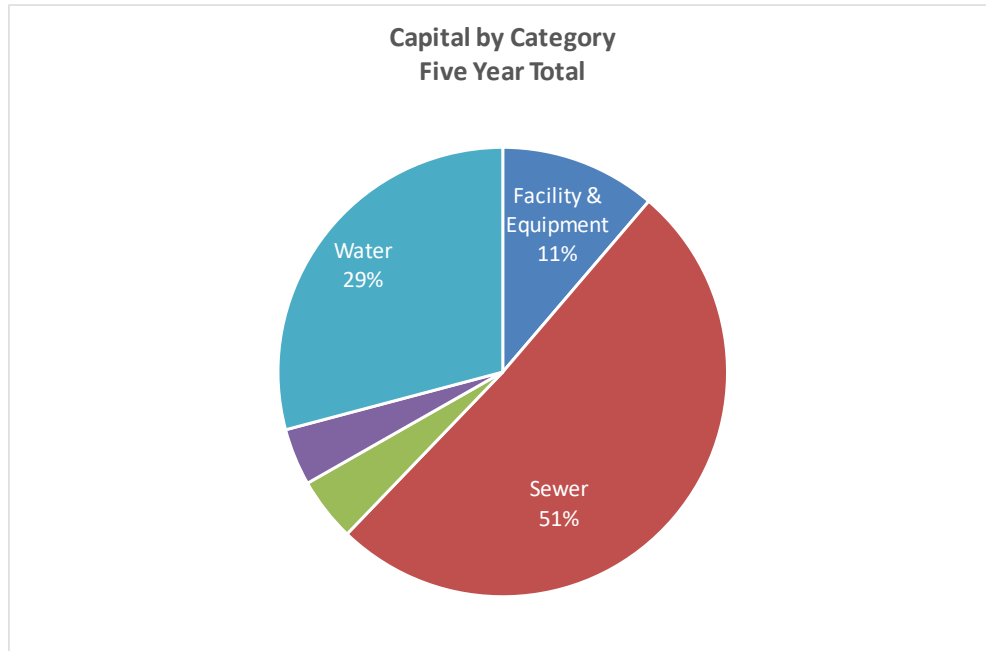

Impact on Operating Budget

Some capital projects will have an impact on future operating budgets. Examples of on-going operational costs include maintenance, utility costs, fuel and annual debt service payments. These costs are analyzed along with the capital project item in order to determine the operating impact, positive or negative to the budget. The following 2018 CIP detail reports received from departments specify anticipated impacts on the operating budget for each 2018 project. Debt financed projects will not have any immediate impact on the budget, but will have annual debt service payments that will be included in future budgets.

Operating and Maintenance Costs within the Budget					
Budget Item	2014-2015 Actual	2015-2016 Actual	2016-2017 Estimate	2016-2017 Amended Budget	2017-2018 Budget

Glossary of Terms

A

Ad Valorem - A tax levied on the assessed value of both real and personal property in proportion to the value of the property (also known as "property tax").

APWA – American Public Works Association.

Amortization - Payment of principal plus interest over a fixed period of time.

Appropriate - An authorization made by the Governing Body which permits officials to incur obligations against and to make expenditures of governmental resources. Appropriations are usually made for fixed amounts and are typically granted for a one year period.

Fund Balance – the difference between assets and liabilities in reported in a governmental fund.

Assessed Valuation - The valuation placed upon real and certain personal property by the County Assessor as the basis for levying property taxes.

B

Balanced Budget - Annual financial plan in which expenditures do not exceed revenues.

Bond - A written promise to pay a specified sum of money on a specific date at a specified or variable stated interest rate. The most common types of bonds are general obligation and revenue bonds. Bonds are typically used as long-term debt to pay for specific capital expenditures.

Bond Rating - A rating that is received from Standard & Poor's Corporation and Moody's Investors Service, Inc., that shows the financial and economic strengths of the City.

Budget - A plan of financial operation embodying an estimate of proposed revenue and expenditures for a given period of time. It is the primary means by which most of the expenditures and service activities of the City are controlled.

C

Capital Improvement Plan (CIP) - A plan for capital expenditures to be incurred each year over a fixed period of years setting forth each capital project and identifying the expected beginning and ending date for each project, the amount to be expended in each year and the method of financing those expenditures.

Capital Expenditure - funds spent for the acquisition of a long-term asset.

Capital Outlay - Land, buildings, building improvements, vehicles, machinery and equipment, infrastructure and all other tangible assets over \$1,000 that are used in operations and that have initial useful lives extending beyond a single reporting period.

Charges for Service - Category for revenue accounts which includes fees paid by citizens for services rendered. For example, various charges to the public for Animal Control services.

CEU – Continuing Education Units

CID – Community Improvement Districts are an economic development tool in the state of Missouri.

CIPP – Cured in pipe placing

Commodities - Expendable items that are consumable or have a short life span. Examples include office supplies, gasoline, minor equipment, and asphalt.

Contingency - A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted.

Contractual Services - Service rendered to a government by private firms, individuals, or other governmental agencies. Examples include utilities, rent, maintenance agreements, and professional consulting services.

COPs - Certificates of Participation. COPs are lease financing agreements in the form of securities that can be marketed to investors in a manner similar to tax exempt debt.

Current Assets - Those assets which are

available or can be made readily available to finance current operations or to pay current liabilities. Some examples are cash, temporary investments, and taxes receivables which will be collected within one year.

Current Liabilities - Debt or other legal obligations arising out of transactions in the past which must be liquidated, renewed, or refunded within one year.

D

Delinquent Taxes - Taxes remaining unpaid on and after the date to which a penalty for nonpayment is attached. The unpaid balances continue to be delinquent taxes until abated, paid, or converted into tax liens.

Department - A major administrative organizational unit of the City which indicates overall management responsibility for one or more activities.

Depreciation - Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence.

E

Encumbrances - Commitments related to unperformed contracts for goods or services

Enterprise Fund - Fund used to account for the acquisition, operation, and maintenance of governmental facilities and services which are predominately self-supporting through user charges.

Expenditures - A decrease in the net financial resources of the City due to the acquisition of goods and services.

F

Fines and Forfeitures - Category for revenue accounts which includes fees paid by citizens. For example, Court Fines and Parking Meter Fines due.

Fiscal Year (FY) - A 12-month period to which the annual operating budget applies, and at the end of which, government determines its financial position and the results of its operations. The City

of Peculiar's fiscal year begins October 1 and ends the following September 30.

Full-Time Equivalent (FTE) - One FTE is a 40 hours per week position.

Fund - The fiscal and accounting entity with a self-balancing set of accounts recording cash and other fiscal resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying a specific activity or obtaining certain objectives in accordance with special regulations, restrictions, or limitations. An independent fiscal and accounting entity including all cash with related liabilities or obligations.

Fund Balance- The fund equity of governmental funds and trust funds; the excess of assets over liabilities.

G

General Fund

The general fund is used to account for the resources traditionally associated with government which are not required to be accounted for in another fund.

General Government

A category in budget highlights detailing the expenditures of various general operating funds.

General Obligation Bonds

Long term debt backed by the full faith and credit of the taxing subdivision. A tax levy can be used to pay principal and interest. Often, cities will also use some revenue from a utility fund to finance the payments.

Generally Accepted Accounting Principle (GAAP)

Uniform minimum standards of and guidelines to financial accounting and reporting. They govern the form and the content of the basic financial statements of an entity. GAAP encompasses the conventions, rules, and procedures necessary to define accepted accounting practice at a particular time. They include not only broad guidelines for general application, but also detailed practices and procedures.

Government Finance Officers Association (GFOA)

A representation of public finance officials throughout the United States and Canada. The GFOA's mission is to enhance and promote the professional management of governmental financial resources by identifying, developing, and advancing fiscal strategies, policies, and

practices for the public benefit.
(source: www.gfoa.org)

Governmental Accounting Standards Board (GASB)

An independent, non-profit agency whose mission is to establish and improve standards of state and local governmental accounting and financial reporting.
(source: www.gasb.org)

Goals and Objectives

Activities and results each department was directed to project and intend to work toward throughout the coming year.

Grants
